Booktalk #1 Cap has never been in the town before. Sure he's been there with his grandmother when they had to pick up supplies, but for the most part, Cap has spent his entire life alone with his grandmother. Back in the 60s, Rain had founded the commune and it had been a lively place. But as the people got older and times changed, everyone had left to resume their lives in the real world. But not Rain. When Cap's parents were killed, Rain raised him in the ways of the commune. But now Rain is in the hospital and Cap is in foster care and forced to go to the public school. With his long hair and homemade sandals, Cap really sticks out. But his naivete is what really sets him apart from the others. Booktalk #2 This book is the story of Capricorn Anderson, who goes by the name of "Cap". It is the story of a 14 year old boy raised on a farm commune by his hippie grandmother named Rain. He is home schooled by Rain and the two of them are the only ones left on the Garland Farm Commune. Cap has never watched TV, tasted pizza, been around kids his age, and has absolutely no idea what a "wedgie" is. When his grandmother falls while picking a plum, she is hospitalized and her broken hip requires her to spend weeks in rehab. Cap is then temporarily placed in the home of a social worker with a teenage daughter who thinks he is very weird. While living with the Donnelly family, Cap attends Claverage Middle School (dubbed "C Average" by the students). Find out what is in store for Cap in the new and foreign land of the place called "middle school". Read SCHOOLED by Gordon Korman. (New Hampshire Great Stone Face nominee, 2008-2009) Booktalk #3 Capricorn Anderson lived on a defunct commune and was home-schooled by his grandmother, Rain. He had never seen television or used a computer. When his grandmother breaks her leg, Cap has to go live with a social worker and her daughter, as well as attend the local middle school. Cap, dressed in his hemp clothing and practicing Tai Chi at noon, draws the attention of the Big Man in School, Zach. Suddenly, Cap finds himself elected school president. Will Cap survive the maneuvering by Zach and his crowd? Will he succeed as school president? Read Schooled to find out. (Pennsylvania Young Reader's Choice Awards Program, 2009-2010) Booktalk #4 Capricorn Anderson only knows life on a hippie commune with his grandmother, Rain. Through years of homeschooling, Cap knows how to grow the food and how to practice the art of Tai-Chi. But he has never watched TV nor had a friend his own age. When Rain is injured, Cap is required to attend the local middle school. When he is mysteriously elected class president, Cap assumes that the students like and trust him. What he doesn't know is that it is tradition to choose the biggest nerd student to act as class president and wait for him/her to fail. Will he fail as most expect or will he be the best 8th grade class president that Claverage (C-average) Middle School has ever known? (Rhode Island Teen Book Award nominee, 2010) Booktalk #5 Have you ever wondered what it would be like without technology? Well if you have you should ask Cap, a twelve year old boy who live in Garland with his Grandmother Rain. Cap is home schooled by his grandmother Rain who teaches him a lot. Garland has no electricity or technology. Cap and Rain are okay with that. One day Rain gets hurt and Cap has to come to the real world. He has to go to go to Claverage Middle school, and no one knows him. Cap dresses very different than everyone else; kids may make fun of him. Will Cap survive or will he be the dork of Claverage Middle school? I do not recommend this book because its boring and weird. The book has very little action and is weird because they pick the weirdest kid to be the class president. If you like book with not very much of action this is for you, but if you like action I would stay away from this book. I give this book two stars out of five I do not recommend this book schooled. It's a warm, feel-good novel somewhat in the vein of Spinelli's Stargirl, or the movie "Blast From the Past." Eighth-grader Capricorn Anderson has lived his entire life on an isolated hippie farm commune, and that's all he knows. But he's only lived there with his grandmother... the commune's founder... because everyone else left the commune by the mid 1970s. Since the book is set in the first decade of the 21st century, Cap, as he becomes known, doesn't know how the real world even functions. When his grandmother falls out of a tree and has to go to hospital and recover in a rehab facility for two months, Cap is thrown into the chaos of middle school. And this particular middle school has a dreadful tradition: the most nerdy, dweeby, outcast kid in the 8th grade is unanimously elected class president, and then the students, led by the popular bullies, make that kid's life miserable. But no matter what anyone tries to do to Cap, he doesn't take it the way they expect him to, and soon, kids start to actually like this weird kid who seems to have time traveled from the 1960s. Each chapter is told in first person from multiple narrators, and it's easy to follow. I think there were eight different narrators, but the reader never forgets who is telling this portion of the story. There are many little plot twists, a lot of humor, and it's just a fun, sweet, feel-good tale.Written by a Library Thing customer.Helpful?Helpful?June 18, 2013Capricorn Anderson knows exactly 1 person- his grandmother "Rain" who is his caretaker, teacher and everything else on the farm, a leftover commune from the 1960s. When she falls and breaks her hip, Cap is taken to stay with a social worker and her daughter and enrolled in Middle School. With his long, frizzy hair, tie-dye shirts and hemp sandals, Cap is immediately the butt of jokes and the intended victim of bullies and nominated to be the 8th grade president (A.K.A. Nerd of the Year prize). Somehow, though, with Cap's complete naivety, courage to do the right thing and hard work, the feelings of the other students get turned until all 1100 are on his side. Humor, narratives from different characters and an interesting look back at an era of peace, freedom and wanting to make the world a better place all come together in this book about the "freakazoid" that ends up winning everybody's heart. This is a short read, only 118 pages, that is best suited for grades 6-9 but even adults will enjoy it.Written by a Library Thing customer.Helpful?February 4, 2011Capricorn Anderson practically lives in 1967, in Garland farm with his grandmother Rain. Rain accidentally brakes her hip, so Cap has to live some where else, and has to go to school. Every body teases him all the time, but after a wile, every one liked him. Then one day Cap's bad luck starts: he gets pinched in the nose, and gets run over by football players. And that is only the beginning of his troubles...Written by a Library Thing customer.Helpful?November 14, 2008Schooled by Gordon Korman is a fish out of water tale. Capricorn Anderson has spent his entire life living on the last hippie commune in America. He has had very limited contact with the mainstream world and knows almost nothing about how to get along in an American high school. Over the years, membership in the commune has dwindled to just Capricorn and his "grandmother" Rain. When Rain breaks her hip and has to spend six weeks in recovery, Capricorn is forced to leave the commune, move in with a foster family and go to high school. Chaos ensues. Capricorn faces the world of high school with a kind of deadpan patience and a will to please that ultimately endears him to his teachers and his classmates. He has no sense of property, so he cannot understand why anyone would want to lock something up in a locker. He is made class president as a joke and told that he must learn everyone's name. So he gets a copy of the school yearbook and begins to study the names and faces. As president he is put in charge of the student body's checking account and begins writing checks for every good cause that comes along—he has no sense of money or of banks after all. The story is told from multiple points of view; both Capricorn's friends and his antagonists get a chance to give us their impressions of him. We also hear from Capricorn himself. The result is a funny and often charming novel about accepting people as they are. I recommend it for both boys and girls in middle school grades. I think it's probably too young for high school age readers, though it is set in high school. So far, my students are universal fans of Schooled. They all loved the ending, too.Written by a Library Thing customer.Helpful?Customer Q&AGet specific details about this product from customers who own it.About our pricesWe're committed to providing low prices every day, on everything.
